

2006 – 2007 CDBG/HOME APPLICANT QUESTIONS AND RESPONSES

Name of Organization: **City of Davis Parks and Community Services Department**
Project Title: **City ADA**

1. Describe in detail why the funding request for Manor Pool increased \$100,000.00 from the original estimate of \$600,000.00 (split evenly at \$300,000.00 for two consecutive years).

The original estimate for the Manor Pool project was grossly under estimated due to changes in the project that occurred after the initial project was defined. When the bids came in for the revised project, the costs estimates increased significantly. The CDBG funding would cover some but not all the additional costs.
