

12/04/08 Parks Master Plan Update Community Workshop

GUIDING PRINCIPLES

- Accessibility: getting there as well as accessible facilities
- Connectivity: Transit to and from facilities
- Diversity of programs
- Economic Feasibility
- Fun
- Innovation: Davis likes innovative parks
- Quality: Ensure a high standard for all facilities
- Safety
- Environmental Sustainability and Maintenance: coordinate with climate change plans

STRATEGIES:

- Greenbelts, trails
- Integrate passive features in parks
- Cluster projects where appropriate
- Look for grant money to support innovation
- Transit options
- Reuse/reconfigure existing spaces
- Health & wellness

PROJECTS:

- Rec swim areas with lanes
- Areas for running on greenbelt (decomposed granite surface, not concrete)
- Community meeting spaces including Walnut park
- Community /neighborhood gardens
- Affordable community activity spaces
- Fruit trees & herbs in greenbelts
