# REPARKING 101

## WHAT IS THE "NO REPARKING" RULE?

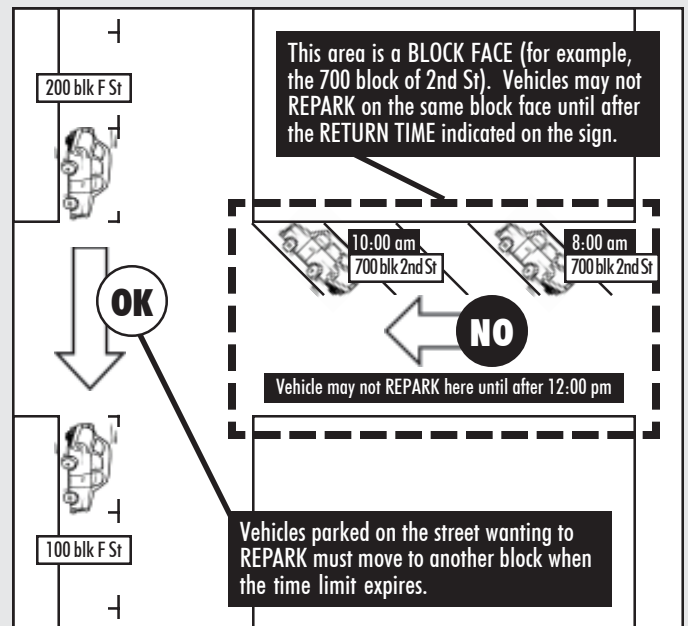

- Vehicles parked on the **STREET** must **MOVE OFF THE BLOCK** they are parked on when the time limit expires.
- Vehicles parked in a **LOT** or **STRUCTURE** must **MOVE OUT OF THE LOT OR STRUCTURE** when the time limit expires.
- Vehicles may not **REPARK** on the same block (for example, the 700 block of 2nd St), or in the same parking lot or structure until after the **RETURN TIME** indicated at the bottom of the sign.
- A **BLOCK** consists of the legal parking spaces on both sides of the street on a block (in which the vehicle is parked), bounded by an intersection at each end.

**EXAMPLE:** A vehicle parks in a **2 HOUR** space at **8:00 am**, which must move off the block by **10:00 am**. The "return time" (which begins from when it first parks) is **4 HOURS**, which means the vehicle may not return to the same block until after **12:00 pm**.

**Effective August 14**

**VEHICLES MAY NO LONGER REPARK ON THE SAME BLOCK or in the same Parking Lot or Structure**
