5. Public Comments
   - John Li: I think we should be doing citywide outreach first, not Downtown first. Reason being is because the Downtown decisions will be imposed on the City. This meeting was a secret to the public. Our economy is one of the worst in the state – we have no property, sales, or housing taxes and we produce too much housing.
   - Aaron L., UC Davis Student: The students’ main concerns are that we will not keep the opportunity sites and not leave a space to grow up in our town. Also, we need to save our farmland. The students’ second major interest is to create a distinct and well-defined transitional area around downtown. We need a clear relationship with the neighborhood associations for what the plan is moving forward. We suggest that this group shouldn’t only meet every time there is a new change, but meet at least every 10 years; we should meet frequently so that there is a space for neighborhood associations to voice their grievances outside of City Council-only areas.
   - Doby Fleeman: I agree with the previous comments, we need to pay attention to our students and the opportunity to create job opportunities for them.
   - Rhonda Reed: I support the ideas stated, but we need to discuss the opportunity sites. Why aren’t they there? Look freshly at the entire downtown area as an opportunity site; the transition zones are critical.
   - David Sandino: Davis has one of the best downtowns in the central valley; this group has a high bar for improving the ir downtown. Something that makes me uncomfortable is the brownstone properties and the vacancies in the downtown businesses – it affects the economic vitality of the downtown.
