SPECIAL INSPECTION AND TESTING AGREEMENT

Prior to obtaining the permit, the project owner shall complete, sign, and submit this form to the Building Plan Review Division for approval. A copy of acceptance letter from the selected inspection and / or structural observation agency has to be submitted to BID prior to permit issuance.

Project Address: _____ Permit No. _____

To applicants of projects requiring Special Inspection or Testing per Section 1701.5 of the State of California Building Code, please acknowledge and return this form to the City of Davis. Special Inspection Agencies shall be chosen from the list of approved firms.

BEFORE A PERMIT CAN BE ISSUED: The Owner or his/her representative, on the advice of the responsible Project Engineer or Architect, shall fill out completely, sign and submit two (2) copies of the attached "Structural Tests and Inspection Schedule" to this Department for review and approval.

The Owner and General Contractor and Inspection/Testing Agency, where applicable, shall also acknowledge the following conditions applicable to Special Inspection and/or Testing.

1. Inspection/Testing Agency to submit names and qualification of on-site Special Inspectors to the Building Inspection Division for approval **PRIOR TO PERMITS BEING ISSUED.**
2. All special inspections shall be continuous unless otherwise noted and approved by the Chief Building Official.
3. It is the responsibility of the General Contractor to review City approved plans for additional inspection or testing requirements that may be noted.
4. The General Contractor is responsible for proper notification to the **Inspection/Testing Agency** for items listed on the back of this form.
5. Testing laboratory personnel only should take samples and transport them to their laboratory.
6. Special Inspectors shall provide detailed weekly reports to the Building Inspection Division of all inspection activities.
7. Copies of all laboratory and inspection reports are to be sent directly to the Building Inspection Division by the Inspection/Testing Agency within a reasonable time to test results.
8. **BEFORE A CERTIFICATE OF OCCUPANCY PERMIT CAN BE ISSUED:** The Inspection/Testing Agency shall submit a statement that all items requiring testing and inspection have been fulfilled and reported. Those items not tested and/or inspected shall be noted in this statement. A copy of this statement shall be maintained at the job site for the City's Building Inspectors review prior to final inspections.

ACKNOWLEDGEMENTS

Prior to issuance of a building permit, the Owner, on the advice of the Project Engineer or Architect, shall complete, sign, and submit this form to the Building Official.

I _____, hereby certify that the Testing/Inspection Agency and/or Structural Observation Agency named above has been engaged to perform structural tests and/or inspections and/or structural observations during construction, as shown on the back of this form, to satisfy all applicable portions of the Building Code.

STRUCTURAL TESTS AND INSPECTIONS SCHEDULE

(See CBC Chapter 17 for Requirements of California Building Code)

Whenever any items on this list are ready for sampling, testing, or inspection, it shall be the responsibility of the General Contractor to give timely notice to the Testing/Inspection Agency so that the required services may be performed.

CONCRETE, SHOTCRETE, GROUT AND MORTAR					
CONCRETE	SHOTCRETE	GROUT	MORTAR	CONCRETE STRENGTH (PSI)	
				Aggregate Tests for Designs	Footings fc
				Suitability of Aggregates	Slab fc
				Mix Designs	Piers fc
				Test Panels	Columns fc
				Batch Plan Inspection	Suspended Slab fc
				Cement Grab Sample	Light Weight fc
				Inspect Placing	BLOCK STRENGTH (PSI)
				Compression Tests	
				Cast Specimens	
				Pick-up Samples	GROUT STRENGTH (PSI)
				Shrinkage Bars	
				Yield Check	MORTAR STRENGTH (PSI)
				Air Check	
				Dry Unit Weight	

STRUCTURAL STEEL

- _____ Sample & Test (list specific above)
- _____ Shop identification and Welding Inspection
- _____ Shop Radiography
- _____ Field Welding Inspection
- _____ Field Bolting Inspection
- _____ Field Ultrasonic Inspection
- _____ Field Radiology
- _____ Metal Deck Welding Inspection

ASPHALTIC CONCRETE

- _____ Mix Design
- _____ Inspection of Batch Plant
- _____ Core/Test
- _____ Field Inspection
- _____ Suitability Tests
- _____ Asphalt Content
- _____ Sieve Analysis
- _____ K Factors
- _____ Stabilometer Value
- _____ Steel

FIREPROOFING

- _____ Inspection of Placement
- _____ Density Tests
- _____ Thickness Tests
- _____ Inspect Batching

FILL MATERIAL

- _____ Acceptance Tests
- _____ Moisture Density Determination
- _____ Field Density

REINFORCING STEEL

- _____ Tensile and Bend, one set per heat per _____ tons
- _____ Inspection of Placement
- _____ Inspection of Welding

UNDERPINNING

- _____ Inspection of Steel Fabrication
- _____ Inspection of Reinforcing and Forms
- _____ Inspection of Concrete Placement
- _____ Inspection of Tiebacks

STRUCTURAL WOOD

- _____ Inspection of Fabrication
- _____ Inspection of Truss Joist Fab
- _____ Sample/Test Component
- _____ Inspection of Glu Lam Fabrication

PRECAST/POST-TENSIONED CONCRETE

- _____ Reinforcing Tests
- _____ Inspection of Reinforcing Placement
- _____ Tendon Tests
- _____ Inspection of Tendon Placement
- _____ Inspection of Concrete Placing
- _____ Inspection of Concrete Batching
- _____ Inspection of Panel Attach and Inserts
- _____ Inspection of Panel Installation
- _____ Compression Tests
- _____ Inspection of Stressing/Transfer

MASONRY

- _____ Preliminary Acceptance Tests (Masonry Units, Wall Prisms)
- _____ Subsequent Tests (Mortar, Grout, Field Wall Prisms)
- _____ Inspection of Grouting
- _____ Inspection of Placement and Grouting

ROOFING

- _____ Inspection of Placement
- _____ Sample and Test

OTHER

INSULATING CONCRETE

- _____ Sample and Test
- _____ Unit Weights

PILING, CAISSONS, CAPS, TIES

- _____ Inspection of Reinforcing Placement
- _____ Inspection of Concrete Placement
- _____ Inspection of Concrete Batching

Additional Instructions or Other Tests and Inspections

Reviewed for the Building Inspection Division by: _____ Date: _____

APPENDIX A of BID #382

Special Inspection Procedures

1. The approved special inspection firm shall notify the BID field office prior to the start of inspection duties. Notification shall consist of job address, permit number, name of inspection agency, persons involved with inspection work at the job site, and the type of inspections to be performed.
2. The special inspector shall use plans and specifications approved by BID.
3. Progress reports describing tests and inspections performed, nonconforming work discovered, and any actions taken to correct nonconforming work shall be submitted to BID for documentation and review. All inspection reports shall be signed by the special inspector and the project engineer/ architect if any actions taken by the engineer/ architect are included in the report. All uncorrected deviations from plans or specifications shall be noted on the report. Copies of all laboratory reports shall be available to BID upon request.
4. It shall be the responsibility of the contractor to give timely notice to the inspection agency so that the required services may be performed.
5. Inspections shall be carried out in accordance with all job drawings and specifications. It will be the inspector's responsibility to use adequate and proper methods of testing. BID retains the option of reviewing and rejecting any test procedures it finds insufficient or inaccurate.
6. Only testing laboratory personnel shall take samples and transport them to their laboratory.
7. The special inspector shall consult the Building Official on problems or concerns over the work.
8. Final notification to BID by the special inspection agency shall be submitted stating that all inspection duties as outlined in the "Structural Tests and Inspections Schedules" have been completed and all nonconforming work and resolutions thereof have been addressed. Any required items not inspected shall be noted, accompanied by an explanation as to why such inspections were not performed. This report must be complete and submitted to BID for review before an occupancy permit can be issued. This report shall be wet signed and stamped by the project engineer/ architect of record and also signed by a licensed engineer responsible for the special inspection.

12 = Spray applied fire proofing

Footnotes:

- a. The firms listed in this document have submitted documentation to the Building Inspection Division acknowledging their expertise in the designated areas of Special Inspection and are approved by the City to perform such services.
- b. This list addresses only those inspections required by the California Building Code (CBC) Section 1701. Please contact the firm for a complete listing of inspection services provided.
- c. This list identifies Special Inspection firms approved pursuant to Building Inspection Division Special Inspection Policy.
- d. Where numbers in parenthesis appear on the table, check the following for the designation:

(1) Floor flatness testing.

(2) Bolts installed in concrete and masonry.

- (3) Bolts installed in concrete.
- (5) Post-Installed anchor bolts in existing concrete.
- (7) Reinforced gypsum concrete.
- (9) Seismic resistance (structural wood)
- (11) Concrete (reinforcement only)
- (4) Including nondestructive testing.
- (6) Medical gas testing for health care facilities.
- (8) Roller compacted concrete.
- (10) Seismic resistance (cold formed steel)
