WATER DISCONTINUATION POLICY

A. Purpose
To provide guidelines and safeguards to residential water users from the discontinuation of water service for nonpayment. This policy enumerates the City of Davis administrative actions for the collection of delinquent accounts, including notifications, charges, discontinuation of service, and restoration of service.

B. Background
Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it is the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumptions, cooking, and sanitary purposes.

C. Definitions
For the purpose of the policy, the following definitions apply:
   a) The term “Landlord” applies to the owner of the parcel, which is rented or leased to an individual.
   b) A “Tenant” is an individual that rents or leases a house or condominium from a landlord.
   c) “Agent” is an individual or business who manages the finances for the owner of a parcel.
   d) An “Occupant” is an individual who resides at the property.
   e) “Water Discontinuation” means the water meter will be turned off, however all other services will remain active, monthly charges will be applied after the date of discontinuation and a lien will be filled with Yolo County Assessor’s Office if charges remain delinquent for sixty (60) days.

D. Notifications
1. First Written Disconnection Notice
Pursuant to the Water Shutoff Protection Act, the City shall not discontinue water service for nonpayment until payment by the customer has been delinquent for at least sixty (60) days. The City
will make a good faith effort to contact the customer in writing at least 10 business days before discontinuation of water service for non-payment. If the mailing address is different from the property address, to which water service is provided, another notice is mailed to the property to which water is provided, addressed as “Occupant”. Written notice shall include, but is not limited to:

- The customer’s name and address.
- The amount of the delinquency.
- The date by which payment or arrangement for payment is required to avoid discontinuation of water.
- A description of the process to apply for an extension of time to pay the delinquent charges.
- A description of the procedure to petition for bill review and appeal.
- A description of the procedure by which the customer may request a deferred, reduce, or alternative payment schedule, including an amortization of the delinquent water charges.
- Inform occupants that they have the right to become customers to prevent shut off or restore service, without being required to pay any amount prior their lease agreement. Occupants are entitle to sign the Occupant City Services Contract for the time of an active lease contract with their landlord. The City will create an account including the owner’s name of the parcel and in care of the tenants name for the period of the lease contract to prevent discontinuation. If the new account in care of the tenant has been delinquent for sixty (60) days and no other occupant residing at the property resumes responsibility, the tenant account will be closed and will be referred to a Collection Agency for processing. If the Occupant City Services Contract fails, the account will revert to the owner’s responsibility.

If the written notice is returned as “undeliverable” the City must make a good faith effort to make arrangements for placement of the notice in a conspicuous place.

2. Forty-Eight (48) Hour Disconnection Notice
The City will make a good faith effort to notify the customer forty-eight (48) hours in advance of disconnection of water service for non-payment by placing the notice in a conspicuous place.
