REQUEST FOR PROPOSALS – EV Charging Infrastructure Phase I

INTRODUCTION

Overview and Background

The City of Davis is seeking qualified engineer or electric vehicle (EV) infrastructure consultant for the first phase of implementation of the City’s ‘Electrify Yolo’ project (Phase I). The scope of work (SOW) for Phase I is to: (1) Provide a life cycle cost analysis (LCCA) for City EV equipment ownership vs. lease options, approaches to long-term operations and maintenance, and/or other program options as recommended by consultant in proposal; (2) Provide site feasibility and cost analysis for identified Level 2 and Level 3 EV charging locations in order to select preferred sites; (3) Provide recommendations on the technology for the chargers to meet City-required minimums for the grant and current best practices, and;

Following completion of the LCCA, and depending on the determination of the City to lease vs. own EV charging infrastructure, the SOW will also include (4) Provide a bid package including design, engineering, environmental review, construction documents and permitting/utility provider coordination for selected sites. This separate bid package will be released for construction/installation and maintenance contract for the EV charging infrastructure. The firm selected for the preparation of the bid package will NOT be eligible to bid on the construction project, but qualified consultants who submitted a proposal, but were not selected for this Request for Proposals (RFP) will be eligible to bid, along with any other interested and qualified firms.

Electrify Yolo is a regional project, with City of Davis as the lead agency, and including Yolo County, Valley Clean Energy Alliance (VCE) on behalf of City of Winters, and City of Woodland. Each agency is managing its own contracts and implementation, based on Memoranda of Understanding (MOUs) between the agency and City of Davis. It is possible but not required that the partner agencies may want to coordinate or collaborate on consultant selection, scope of work and installation, however that is not included at this time.

The project is funded under a Sacramento Area Council of Governments (SACOG) Green Region grant, with a total funding of $2,911,752. The City of Davis is identified as implementing approximately $2 million through a Fund Exchange Agreement (FEA) between SACOG and Davis, in order to de-federalize the funding for the entire project. The current RFP is to provide a planning framework for EV charging infrastructure in Davis and implement Phase I, the minimum City of Davis requirements of the FEA, including some or all of the following components, based on the scope of work identified in this RFP:

1) Site, design, permit, construct and install a minimum of two (2) downtown, networked Level 3 (DC Fast) chargers within ½ to 5 miles of major freeway corridors
2) Site, design, permit, construct and install a minimum of three (3) networked Level 2 chargers on city-owned property
3) Purchase a minimum of two (2) mobile solar charging stations of the type similar to ‘EV ARC’ solar standalone charging stations
4) Purchase or lease one (1) electric vehicle to transport 8 or more people

This RFP is being released broadly to interested firms with up-to-date expertise and knowledge of EV technology, implementation and costs. Due to City procurement practices, following completion of the Phase I analysis and engineering contract, the firm that completed the bid package will NOT be eligible to bid on the construction project (as applicable). Other qualified firms, including other firms that submitted proposals, will be eligible both to submit bids on installation/construction of Phase I infrastructure, and for proposing on subsequent phases. However, it is also possible that an amendment to the contract with the selected Phase I firm will be made for future phase planning and implementation.

The City is aware that the field of electric vehicle infrastructure is rapidly evolving; new technologies and opportunities arise regularly. Future EV infrastructure goals may be based on City electric vehicle charging priorities and may include, but not be limited to:

- Identifying and installing EV chargers at additional site locations such as to support city fleet electrification; to service multi-family housing sites or commercial/business uses, especially recent development projects that have been required to pre-wire EV infrastructure and panel capacity; or to provide charging infrastructure adjacent to freeway locations such as Park-and-Rides, additional sites identified in the EV Charging Plan or other community-desired site locations;
- Changing the mix of installing additional Level 2 or Level 3 chargers, or purchasing electric vehicles or mobile chargers;
- Recommending implementation of other technology such as battery storage or microgrids in conjunction with EV charging infrastructure and with input from UC Davis and local experts; or
- Further developing multi-modal hub improvements and microtransit to increase mode share of active transportation in conjunction with EV charging sites.

These goals can be supported either with funding remaining in the city’s SACOG funding (approximately $2 million total) following Electrify Yolo Phase I implementation, or with further grant, loan or funding source efforts to implement EV charging infrastructure.

**Purpose of Project**

This Phase I effort for implementing EV charging infrastructure and equipment purchases, is specifically designed to satisfy the minimum City of Davis commitments in the FEA. Based on the identified Electrify Yolo goals for funding, the overall project is intended to benefit Davis residents, build internal capacity for Davis as a destination and improve multi-modal hub development in the Davis downtown. This is being accomplished through the suite of elements funded by the SACOG Green Region grant, including charging infrastructure in the downtown, and purchase of mobile chargers and electric vehicle(s).
City of Davis Request for Proposals  
*EV Charging Infrastructure Phase I*

Project site locations have been identified for the Phase I feasibility and cost analysis phase. *Note that it is anticipated that more candidate EV charging sites than the minimums identified will be assessed, in order for the City to select the optimal sites for Phase I, and potentially provide information for additional site selection in the future.* An addendum to the selected consultant for the Phase I project may be implemented for additional scope of work in Phase II.

**Potential Davis Locations:**

Preliminary City of Davis candidate sites for feasibility and cost analysis, selected from the short-term action list in the 2017 City of Davis EV Charging Plan (EVCP) adopted by City Council and the FEA between City of Davis and SACOG (as per the Green Region grant narrative), include, but are not limited to:

**Level 3 (DC Fast chargers)—** a minimum of two locations will be selected for the bid package
- City Hall (200 KW capacity available with current upgrade project implementation)
- City-owned Downtown E Street parking lot (adjacent to I-80 corridor); capacity or availability of electric connection unknown, existing non-networked chargers may be upgraded
- City-owned Downtown Parking garage at 1st and F streets (adjacent to I-80 corridor); capacity or availability of electric connection unknown
- City-owned Downtown Parking garage at 4th and G streets (adjacent to I-80 corridor); capacity or availability of electric connection unknown
- South Davis Nugget shopping center (adjacent to I-80 corridor) and/or Sutter Davis Hospital/Medical Offices (adjacent to CA-113 corridor) capacity or availability of electric connections in these locations is unknown.

**Level 2 Chargers** (dual chargers, networked—number and potential future pre-wiring/panel upgrades to increase capacity to be determined)—a minimum of three locations will be selected for the bid package
- City Hall
- Downtown E Street Parking Lot
- Central Davis Veterans’ Memorial/Yolo County Library on 14th Street/Davis High School
- Central Davis Downtown Parking garage at 1st and F streets
- Central Davis Downtown Parking garage at 4th and G streets
- Davis Police Department
- Davis Public Works Department at 1717 5th Street
- Davis Fleet/ Parks at 1818 5th Street

**Term of Contract**

This Phase I EV Infrastructure contract will be for one year from the date of contract execution. However, it is the City of Davis’ intent to proceed with construction bids for Phase I infrastructure
City of Davis Request for Proposals  
*EV Charging Infrastructure Phase I*

by the beginning of the 2021 1st Quarter (as applicable). **Consultant time frames for completion of the work will be a factor in selection.**

**Additional Regulations**

The consultant will incorporate all approved City procurement/purchasing policies to install and maintain EV charging infrastructure, in accordance with the City’s local requirements and in compliance with all applicable state or federal laws and regulations, including but not limited to payment of prevailing wages. These documents will be followed by the standard City contract bidding/award process. The construction document package shall require all bidding contractors to obtain adequate insurance to cover any risks associated with the construction and operation of such infrastructure.

**SCOPE OF SERVICES**

**Scope of Work**

The following scope of work shall be included in the consultant proposals:

1. **Life Cycle Cost Analysis (LCCA):**
   The consultant is asked to provide a life cycle cost analysis of EV charging equipment ownership vs. lease vs. third party ownership or other models available at this time. These costs and benefits for various options will allow comparisons to be made and will inform the decision to select an approach to ownership for current and future EV charging infrastructure implementation. As part of the approach, the consultant is expected to include considerations of return on investment, impacts of rapidly changing technology, staff capacity, cost and options for operations and maintenance agreements, and identifying optimal time frames (3-year, 5-year, other).

2. **Site Locations: Site Feasibility and Cost Analysis**
   City of Davis EV charging locations are previously identified and approved by City Council in the 2017 EVCP and incorporated into the SACOG grant application and FEA. These locations will be prioritized and selected for implementation in Phase I based on site feasibility and cost analysis of the candidate sites (not included in the EVCP). These locations potentially include Level 3 (DC Fast) Chargers at City Hall, Downtown E Street parking lot, Downtown Parking Garage at 1st and F Streets (I-80 corridor), Nugget Shopping Center, and/or Sutter Davis Hospital/Medical Offices; and networked Level 2 Chargers in multiple locations on city property.

   The goal with the available funding is to maximize the total possible number of installed chargers, along with infrastructure for future chargers and completing other commitments. For this reason, the site feasibility and cost analysis will address more than the minimum number of sites required in the FEA, so that the optimal sites from those identified can be selected for Phase I, and additional sites can be considered for future phases.
3. **Technology:**
   The consultant is asked to provide recommendations on the technology for the chargers to meet City-required minimums for the grant and current best practices. At a minimum, this will include networked charging infrastructure parameters which provide data tracking capabilities, identified as follows:
   
   a. Network capable, with ability for City to engage in two-way communication via internet or cell phone;
   
   b. Demand response capable;
   
   c. Flexibility for City to require users to pay for electricity (fuel), and to have varying fuel costs for different users and/or different lengths of time (e.g. for agency employees vs. the public; free for the first hour, then charged at increasing rates for subsequent hours; or other);
   
   d. Providing City with ability to push software upgrades through the communication channel; and
   
   e. Providing City with ability to collect use data and/or maintenance/operational data.

   Additionally, the consultant should provide analysis of appropriate power management technology, such as rotating four chargers to one circuit. Other current and emerging technologies may be recommended for implementation by the consultant.

4. **Construction Documents, Environmental Review and Permitting**
   Following life cycle cost analysis to select ownership model, site feasibility and cost analysis to prioritize and select identified Phase I site locations and quantities/level of chargers and technical components at each location, and depending on the determination of the City to lease vs. own EV charging infrastructure, the consultant may be asked to prepare all documents required for a construction bid. This will include design and engineering, provision of code-required accessibility requirements and other necessary requirements complying with the City’s standards, any necessary environmental review, complete construction documents and permitting through the city building department.

5. **Recommendations on additional funding and implementation resources (Optional)**
   The consultant is asked to provide any information available to them to assist the City in optimizing this project, as an optional task identified in the proposal, including information about statewide or other programs to fund and facilitate EV charging, and to leverage available funding. Some of the possible programs that may be active and/or have available funding include but are not limited to:
   
   a. Sourcewell (formerly NJPA), a type of GSA contract. Purchasing through this contract may avoid time and labor cost associated with an RFP process and provide a pre-negotiated 20% hardware discount.
   
   b. Pacific Gas & Electric (PG&E) EV programs, including EV Charge Network (minimum 10 Level 2 chargers), EV Fast Charge program and Fleet funding. It is not clear at this time which, if any, of these PG&E programs are active.
   
   c. Yolo Solano Air Quality Management District (YSAQMD) Clean Air Funds
d. California Electric Vehicle Infrastructure Project (CALeVIP) 
https://calevip.org/available-funding

e. Low Carbon Fuel Standard (LCSF) funding of the California Air Resources Board (CARB)

f. Electrify America funding and resources

g. Other funding and resources as they evolve

Notwithstanding the inclusion of services in this RFP, the final scope of services negotiated between the City and the successful Proposer shall be set forth in the Professional Services Agreement (“Agreement”) executed by and between the City and the successful Proposer. A copy of the Agreement is attached hereto as Appendix A and incorporated herein by this reference.

Failure to include any exceptions to the RFP, including the Agreement, shall be deemed an acceptance of all terms therein by Proposer and Proposer shall not have any further opportunity to request revisions to the same following submission of its proposal.

**Amendments to Proposals**

No amendment, addendum or modification will be accepted after a proposal has been submitted to City. If a change to a proposal that has been submitted is desired, the submitted proposal must be withdrawn and the replacement proposal submitted to City prior to the proposal due date and time.

Price Validity
Prices provided by Proposers in response to this RFP are valid for 90 days from the proposal due date. The City intends to award the contract within this time but may request an extension from the Proposers to hold pricing, until negotiations are complete and the contract is awarded.

No Commitment to Award
Issuance of this RFP and receipt of proposals does not commit the City to award a contract. City expressly reserves the right to postpone the RFP process for its own convenience, to accept or reject any or all proposals received in response to this RFP, to negotiate with more than one Proposer concurrently, or to cancel all or any part of this RFP.

Right to Negotiate and/or Reject Proposals
City reserves the right to negotiate any price or provision, task order or service, accept any part or all of any proposals, waive any irregularities, and to reject any and all, or parts of any and all proposals, whenever, in the sole opinion of City, such action shall serve its best interests and those of the tax-paying public. The Proposers are encouraged to submit their best prices in their proposals, and City intends to negotiate only with the Proposer(s) whose proposal most closely meets City’s requirements at the lowest estimated cost.

Prevailing Wage
Proposers shall take cognizance of the requirements of California Labor Code Sections 1720 et seq. and 1770 et seq., as well as California Code of Regulations, Title 8, Section 16000 et seq. (“Prevailing Wage Laws”), which require the payment of prevailing wage rates and the performance of other requirements on certain “public work” and “maintenance” projects. and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

i. Each policy of insurance required herein shall be from a company or companies having a current A.M. Best's rating of no less than A:VII and admitted and authorized to transact the business of insurance in the State of California.

(i) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(ii) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may terminate this Agreement for cause.

(iii) City may require Consultant to provide for inspection by City, complete copies of all insurance policies in effect for the duration of the Agreement.

(iv) No City elected or appointed official, officer, employee, agent or volunteer shall be personally responsible for any liability arising under or by virtue of this Agreement.

(v) The insurance obligations under this Agreement shall be: (1) all the insurance coverage and/or limits carried by or available to Consultant; or (2) the minimum insurance coverage requirements and/or limits shown in this Agreement; whichever is greater. Any insurance proceeds in excess of or broader than the minimum required coverage and/or minimum required limits, which are applicable to a given loss, shall be available to City. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Consultant under this Agreement.

k. Subcontractor Insurance Requirements

Consultant shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. Policies of commercial general liability insurance provided by such subcontractors shall be endorsed to name the City, its elected and appointed officials, officers, employees, agents, servants, designated volunteers and agents serving as independent contractors in the role of City officials as additional insureds, using ISO form CG 20 38 04 13 or an endorsement providing the exact same coverage. If requested by Consultant, City may approve different scopes or minimum limits of insurance for particular subcontractors.
13. **Indemnification.**

a. To the fullest extent permitted by law, Consultant shall defend (with counsel reasonably approved by City), indemnify and hold the City, its elected and appointed officials, officers, attorneys, agents, employees, servants, designated volunteers, successors, assigns and those City agents serving as independent contractors in the role of City officials (collectively “Indemnitees” in this Section 13) free and harmless with respect to any and all claims, demands, causes of action, costs, expenses, liabilities, losses, damages, stop notices and/or injury of any kind, in law or equity, to property or persons, including bodily injury, wrongful death, personal injury and property damage, in any manner arising out of, pertaining to, or incident to any acts, errors, omissions, or willful misconduct of Consultant, its owners, officials, officers, employees, servants, subcontractors, consultants or agents in connection with the performance of the Consultant’s Services, and/or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses. Consultant’s obligation to indemnify shall not be restricted to insurance proceeds, if any, received by Consultant, or by the City or any of the other Indemnitees.

b. For Design Professional Services. If Consultant’s Services hereunder include the performance of design professional services by a “design professional”, (as defined below), then to the extent permitted by law, Consultant shall, at its sole cost and expense, indemnify and hold the City and other Indemnitees, and each of them, harmless with respect to any and all damages, costs, expenses, liabilities, claims, demands, causes of action, proceedings, judgments, penalties, liens, and losses of any nature whatsoever, including fees of accountants and other professionals, and all costs associated therewith, and reimbursement of attorneys’ fees and costs of defense, to the extent arising out of, pertaining to, or relating to, in whole or in part, the negligence, recklessness, or willful misconduct of the Consultant, and/or its officers, agents, employees, servants, subcontractors, contractors or their officers, agents, employees, servants, contractors or subcontractors (or any entity or individual for whom the Consultant shall bear legal liability) in the performance of design professional services under this Agreement. Notwithstanding the foregoing and as required by Civil Code Section 2782.8(a), in no event shall the cost to defend the Indemnitees that is charged to Consultant, exceed the Consultant’s proportionate percentage of fault.

For purposes of this Section 13.b, and in accordance with Civil Code Section 2782 (a), "design professional" means only the following and only while performing professional design services: (i) an individual licensed as an architect pursuant to Business and Professions Code Section 5500, et seq., and a business entity offering architectural services in accordance with that Code section; (ii) an individual licensed as a landscape architect pursuant to Business and Professions Code Section 5615, et seq., and a business entity offering landscape architectural services in accordance with that Code section; (iii) an individual registered as a professional engineer pursuant to Business and Professions Code Section 6700, et seq., and a business entity offering professional engineering services in accordance with that Code section; and (iv) an individual licensed as a professional land surveyor pursuant to Business and Professions Code Section 8700, et seq., and a business entity offering professional land surveying services in accordance with that Code section.
c. The provisions of this Section 13 shall survive the termination of this Agreement.

Consultant is aware of the requirements of California Labor Code Sections 1720, et seq. and 1770, et seq., which require the payment of prevailing wages and the performance of other requirements on certain “public works” and “maintenance” projects (“Prevailing Wage Laws”). If the Services are being performed as part of an applicable “public works” or “maintenance” project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with the Prevailing Wage Laws. These rates are on file with the City Clerk or may be obtained at: [http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm](http://www.dir.ca.gov/OPRL/DPreWageDetermination.htm).

(i) Copies of the prevailing wage rates may be obtained at cost at the City Clerk’s office. Consultant shall post a copy of such wage rates at the job site and shall pay the adopted prevailing wage rates as a minimum. Consultant shall comply with the provisions of Sections 1775, 1776, 1777.5, 1777.6, and 1813 of the Labor Code. Pursuant to the provisions of 1775 of the Labor Code, Consultant shall forfeit to the City, as a penalty, not more than $200.00 for each calendar day, or portion thereof, for each laborer, worker, or mechanic employed, paid less than the stipulated prevailing rates for any work done under this Agreement, by him or by any subcontractor under him, in violation of the provisions of this Agreement.

(ii) Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Consultant and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code Section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

b. If the Services are being performed as part of an applicable “public works” or “maintenance” project, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Consultant and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Consultant shall maintain registration for the duration of this Agreement and require the same of any subcontractors, as applicable. Notwithstanding the foregoing, the contractor registration requirements mandated by Labor Code Sections 1725.5 and 1771.1 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Sections 1725.5 and 1771.1.

c. This Agreement may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Consultant’s sole responsibility
to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Consultant or any subcontractor that affect Consultant’s performance of the Services, including any delay, shall be Consultant’s sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Consultant or any subcontractor.

15. **Living Wage Ordinance.**
   
   a. Consultant agrees to comply with Davis Municipal Code Chapter 15.20, the City of Davis Living Wage Ordinance. If Consultant employs six (6) or more employees, and receives $25,000 or more from the City pursuant to this Agreement and any other contracts with the City during a twelve month period, Consultant shall be required to provide all employees eligible under Chapter 15.20 with the minimum compensation set forth in Davis Municipal Code Section 15.20.060 during the term of this Agreement.
   
   b. Prior to commencement of any work under this Agreement, Consultant and all subcontractors that are subject to the requirements of Chapter 15.20 will provide certification in a form satisfactory to the City that Consultant and subcontractors are providing all eligible employees the minimum compensation required pursuant to Davis Municipal Code Section 15.20.060. Additionally, prior to commencement of any work, Consultant shall notify in writing all employees that are eligible for minimum compensation of their rights under Chapter 15.20.
   
   c. Consultant shall maintain all records and documents necessary to establish whether Consultant is subject to Chapter 15.20. If Consultant is subject to the requirements of Chapter 15.20, Consultant shall further be required to maintain monthly records of Consultant’s employees, including records showing the hourly rate paid to each employee, the amount paid by Consultant for health benefits, if any, and the amount of days off provided per year for sick leave, vacation, or personal necessity. The records described in this subsection shall be made available to the City upon request. The failure to produce these records within three (3) business days following request by the City shall be a default under this Agreement.
   
   d. Consultant shall include the requirements of Chapter 15.20 in any and all agreements with subcontractors hired to provide the Services pursuant to this Agreement. Any and all subcontractors retained by Consultant to provide the Services pursuant to this Agreement that employ six or more employees and receive $25,000 or more for the Services provided to the City pursuant to this and any other City contracts during a 12-month period shall be required to comply with the terms of Chapter 15.20. Failure by a subcontractor subject to the requirements of Chapter 15.20 to comply with the terms of Chapter 15.20 shall constitute a default of the Consultant under this Agreement.

17. **Laws and Venue.**

This Agreement shall be interpreted in accordance with the laws of the State of California without regard for change of venue laws. 18. **Termination.**

   a. City has the right to terminate any portion or all of the Services under this Agreement with or without cause, by giving ten (10) calendar days’ prior, written notice to Consultant. In such event, City shall be immediately given title to and possession of all Work Product and original field notes, drawings and specifications, written reports and all other documents produced or developed pursuant to this Agreement. Provided Consultant is not then in breach, City shall pay Consultant the reasonable value of services rendered for any portion of the Services completed prior to termination. If said termination occurs prior to completion of any specific task for which a payment request has not been received, the charge for Services performed shall be the reasonable value of such Services, based on an amount agreed to by City and Consultant. City shall not be liable for any costs other than the charges or portions thereof which are specified herein.    b. Consultant may terminate its obligation to provide services under this Agreement by serving written notice of termination to the City, provided Consultant has first served the City with a written notice of default and demand to cure, and City has failed to cure such default within thirty (30) days of receipt of such notice.

19. **Ownership of Work Product.**

Consultant shall defend, indemnify and hold City, and the other Indemnitees (as defined in Section 13(a), above) harmless from any and all loss, claim or liability in any way related to a claim that City’s use of any of the Work Product violates federal, state or local laws, or any contractual provisions, or any rights or laws relating to trade names, licenses, franchises, copyrights, patents or other means of protecting intellectual property rights and/or interests in products, ideas or inventions. Consultant shall bear all costs arising from the use of patented, copyrighted, trade secret or trademarked documents, materials, equipment, devices or processes in connection with its provision of the Work Product produced under this Agreement. All paper used for any reports that are required to be submitted under this Agreement shall be produced on recycled paper conforming to the minimum content standards as specified herein. All such reports shall have the front cover labeled in such a way as to clearly identify that the report was produced on recycled paper. Where practicable, the pages of all such reports shall be produced double-sided.

Definitions.

Postconsumer Material means only those paper products generated by a business or consumer which have served their intended end uses, and which have been separated or diverted from solid wastes for the purpose of collection, recycling, and disposition.

Recovered Paper Material means paper waste generated after the completion of a papermaking process, such as postconsumer materials, envelope cuttings, bindery trimmings, printing wastes, cutting and other converting wastes, butt rolls and mill wrappers, obsolete inventories, and rejected unused stock. Recovered paper material, however, shall not include fibrous wastes generated during the manufacturing process such as fibers recovered from wastewater or trimmings of paper machine rolls (mill broke), or fibrous byproducts of harvesting, extractive or woodcutting processes, or forest residues such as bark.

Minimum Content Standard. The following categories of paper must contain the minimum percentages of material listed under both “Recovered Material” and “Postconsumer Material” included within the total “Recovered Material” percentage. When utilizing a category of paper not listed below, the paper shall contain the highest percentage of recycled paper available.
