Series 1 and Series 2
Mandatory Water Waste Restrictions

- No watering during and within 48 hours of rain.
- Property owners must fix leaks immediately or within 72 hours of notification by the City.
- Fountains and water features must have recirculating water.
- No excessive water flow or runoff onto pavement, gutters or ditches from irrigation.
The UC Yolo County Master Gardeners, City of Davis and Central Park Gardens will be hosting workshops on “The ABCs of Sustainable Landscaping”. The presentation is designed as a guide to converting and maintaining an ecological and attractive landscape that combines sensible water use, water-wise plantings, beneficial insects habitat and green waste reduction.
City-Wide Organics Collection Coming July/August 2016!

In July 2016, the current system of collecting yard material loose in the street will change to a hybrid system of yard material piles and organics carts. Once the Organics Program begins, all residents and business in Davis will have access to food scrap recycling service through Davis Waste Removal. This organics program will help the City achieve its 75% waste diversion goal.

The City will be hosting several community meetings in the coming months to discuss the upcoming city-wide Organics Program and answer questions.

- Tuesday, April 12 at 6:30 p.m. in the Game Room at the VMC
- Wednesday, April 20 at 6:30 p.m. in the Game Room at the VMC
- Monday, May 9 at 6:30 p.m. in the Game Room at the VMC
- Tuesday, May 17 at 6:30 p.m. in the Game Room at the VMC

These meetings will include a short presentation on the details of the Organics Program and a question and answer session. [Click here to view the presentation shown at the community meetings](#). Additional community meetings will be scheduled in the coming months. If your neighborhood or organization would like the City to attend one of your meetings to discuss the Organics Program, please email PWWeb@CityofDavis.org.
