

# Reduced-Risk Pesticide List (RRPL)

Commercial Name	Active Ingredient	Hazard Tier*	Possible Limitations	Type
Roundup	Glyphosate	1 Most Hazardous	May not be used in areas with high public exposure. <b>Phase-out and exploring alternative product.</b>	Herbicide: Post-emergent, non-selective
Ortho Weed-B-Gone	Dimethylamine salt	1 Most Hazardous	May not be used in areas with high public exposure. <b>Phase-out and exploring alternative product.</b>	Herbicide: Post-emergent, non-selective
Snapshot	Trifluralin & Isoxaben	1 Most Hazardous	May not be used in areas with high public exposure. <b>Phase-out and exploring alternative product.</b>	Herbicide: Pre-emergent, selective
Turf Supreme w/Trimec	2,4 D, Dicamba & Propionic acid	1 Most Hazardous	May not be used in areas with high public exposure. <b>Phase-out and exploring alternative product.</b>	Herbicide: Post-emergent, selective
Cleantraxx	Oxfluorfen & Penoxsulam	1 Most Hazardous	May not be used in areas with high public exposure.	Herbicide: Pre- & Post-emergent, selective
Direx 4L	Diuron	1 Most Hazardous	May not be used in areas with high public exposure. <b>Phase-out and exploring alternative product.</b>	Herbicide: Pre-emergent, nonselective
Crew	Isoxaben & Dithiopyr	1 Most Hazardous	May not be used in areas with high public exposure.	Herbicide: Pre-emergent, selective
Dimension 2EW	Dithiopyr	1 Most Hazardous	May not be used in areas with high public exposure.	Herbicide: Pre-emergent, selective
Advion WDG	Indoxacarb	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Broad-spectrum, pro-insecticide
Advion Cockroach Gel Bait	Indoxacarb	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Broad-spectrum, pro-insecticide
Alphine WSG	Dinoterfuran	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Broad-spectrum Insecticide

Belam Insecticide Aerosol	Sumithrin, MGK-264, Imidacloprid	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Selective Insecticide
Bedlam Plus	Phenothrin, Imidacloprid, MGK-264	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Selective Insecticide
Conrac California	Bromethalin	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Rodenticide: Non-anticoagulant Neurotoxin
Diacon IGR	S-Methoprene	1 Most Hazardous	May not be used in areas with high public exposure.	Insecticide: Insect Growth Regulator
Precor 2625 Premise Spray	Etofenprox, Tetramethrin, Pyrethrin, PBO, S-Methoprene	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insect Growth Regulator & Insecticide
Take Down II Soft Bait	Bromethalin	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Rodenticide Non-anticoagulant Neurotoxin
Tekko Pro	Pyriproxyfen, Novaluron	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Broad spectrum Insect Growth Regulator
PT Wasp Freeze II	Prallethrin	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Stinging Insects
Terad 3	Cholecalciferol	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Rodenticide: Non-anticoagulant, Vitamin D3
Advion Ant Gel	Indoxacarb	1 Most Hazardous	Used at facility structures. May not be used in areas near storm drains or aquatic life.	Insecticide: Broad-spectrum, pro-insecticide
Activator 90	Alkylphenol, Ethoxylate, & Alcohol Ethoxylate	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Non-Ionic surface surfactant

MSO Surfactant	Phosphatidyl Choline, Methylated Vegetable Oil, Alcohol Ethoxylate	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Seed oil surfactant
Scythe	Pelargonic Acid	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, non-selective
Esplanade 200 SC	Indaziflam	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Pre-emergent, non-selective
Capstone	Triclopyr	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, non-selective
Telar	Chlorsulfuron	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, selective
Milestone	Aminopyralid	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, selective
Vastlan	Triclopyr choline salt	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, selective
Transline	Clopyralid	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, selective
Prodiamine 65 WDG	Prodiamine	2 Less Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Pre-emergent, selective
Rootx	Dichlobenil	2 Less Hazardous	Limited to sewer line root control.	Herbicide: Post & Pre-emergent root killer
Razorooter	Diquat dibromide	2 Less Hazardous	Limited to sewer line root control.	Herbicide: Post-emergent, non-selective
Selontra	Cholecalciferol	2 Less Hazardous	Used at facility structures.	Rodenticide: Non-anticoagulant Vitamin D3
Nibor D	Disodium Octaborate Tetrahydrate	2 Less Hazardous	Used at facility structures.	Insecticide: Broad-spectrum
Essentria IC3	Geraniol, Rosemary & Peppermint oil	2 Less Hazardous	Used at facility structures.	Insecticide: Botanical insecticide for stinging biting & crawling insects.

Cheetah Pro	Glufosinate Ammonium	3 Least Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, non-selective
Lifeline	Glufosinate Ammonium	3 Least Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent, non-selective
Homeplate	Caprylic acid & Capric acid	3 Least Hazardous	Ok for most applications. Avoid non-target exposure.	Herbicide: Post-emergent burndown, non-selective
Stem Wasps Hornet Yellow Jackets	Geraniol	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Botanical insecticide for stinging insects.
EcoVia Wasp & Hornet Killer	Sodium lauryl sulfate, Clove oil & Peppermint oil	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Botanical insecticide for stinging insects.
Cimexa Insecticide Dust	Amorphous Silica Gel	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Broad-spectrum Insecticide
Essentria D Dust	2-Phenethyl Propionate Soybean oil, Clove Oil	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Broad-spectrum Insecticide
Eco Raider All Natural	Geraniol, Cedar Oil, Citronella Oil, Sodium Lauryl Sulfate	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Botanical insecticide Neurotoxin
Essentria G Granular Insecticide	Clove oil, Thyme Oil	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Selective Insecticide
Ratx Rodent Killer	Corn Gluten Meal, Sodium Chloride	3 Least Hazardous	Used at facility structures and operational sites.	Rodenticide: Desiccant
Niban Granular Bait	Orthoboric Acid	3 Least Hazardous	Used at facility structures and operational sites.	Insecticide: Perimeter insecticide for crawling insects.

\* This Reduced Hazard Pesticide List was developed independently by an IPM Consultant (Helix Environmental & Bowman) using the hazard ranking process prescribed in the city's IPM Policy and Procedures
